WHAT IS VISHING?

Vishing, also known as voice phishing, is a cybercrime where fraudsters use the phone to steal personal information from their targets. One vishing method used to trick victims is ID spoofing, where scammers impersonate a legitimate entity using a phone ID that looks authentic.

What to do if you suspect a vishing attempt:

- Don't answer their questions or press any buttons.
- Don't try to confront them since scammers can record your response to gain access to voice-activated menus.
- Don't share personal data.

Hang up immediately!
